SRP 229,00 €

**229,00 €**

DAB+/FM hi-fi component with CD-player and Internet radio. Support Spotify Connect and your MP3 files either via a USB-slot, Bluetooth or CD.

Colour

### PRODUCT DETAILS

With a width of 435 mm, the DIGITRADIO 143 CD is an ideal component in your high-quality music system. They complement the hi-fi system with a variety of radio, music and streaming functions, which are visualized on the large 3.2" color display. The hi-fi component opens the door to new radio worlds when you finally receive your favorite national and international stations via DAB + or directly from the Internet. The integrated CD player also reads MP3 files and elicits deep, musical details from the data carriers.

In addition, the DIGITRADIO 143 CD inspires with modern streaming technologies such as Bluetooth audio streaming or music streaming in the home network. Includes support for Spotify Connect. Do you have large MP3 collections on your hard drive? Then simply connect the data carrier to the DIGITRADIO 143 CD to enjoy the music on the large speakers of the connected stereo system. And all of this is conveniently controlled via the CONNECT app on your smartphone or tablet.
