Colour

PRODUCT DETAILS

Experience the benefit of quality hardware and sound along with the convenience of smartphone content and call control. The on-board control integrates with Sony's easy-to-use Smart Key app allowing you to assign actions to the button clicks giving you customised control for your Android device. With a powerful frequency range of 5-24000 Hz, this earphone will provide you with a powerful base, high mid-range sound and high resolution treble.

What's in the box

- Headphones
- Small, Medium and Large Ear Buds
