PRODUCT DETAILS

NOISE-FREE RADIO ENJOYMENT FOR ON THE GO
With its compact dimensions, the ‘DR7’, measuring 16.5 x 5.5 x 10.5 cm, fits in every swim bag and every backpack – the ideal portable radio. Thanks to DAB/DAB+ reception, you can look forward to relaxed listening enjoyment without having to spend a long time setting the right frequency. Whether you are at the lake or in your own garden – with battery operation, you can enjoy listening to your favourite DAB stations for around 20 hours without a power supply. If you like your music really loud, you can connect headphones – that way, you won’t disturb your neighbours.

You can store up to 30 favourite stations as presets, meaning you don’t have to search for them again and again. There are two direct selection buttons for storing and selecting your absolute favourite stations.

The illuminated display clearly shows which radio station is selected and displays additional programme information such as the current artist or track. The large rotary control makes operating the portable radio child’s play.
