PRODUCT DETAILS

The DIGITRADIO 750 provides great entertainment in the smallest of spaces. As a digital radio, it receives the entire programme variety via FM and, of course, also via DAB+ in the best sound quality. And if the radio programme leaves something to be desired, the DIGITRADIO 750 will delight every music fan as a versatile micro system. You can stream music from your tablet, smartphone or PC to the radio via Bluetooth or play music from external USB data carriers via USB. Your CD collection will not miss out either, thanks to the integrated CD player. In addition to the numerous functions, the DIGITRADIO 750 scores with its elegant design and excellent sound. The loudspeakers, enclosed in a wooden housing, transform any room into a small discotheque with 100 watts of output power. And thanks to the compact dimensions of the DIGITRADIO 750, this is possible in almost any location.

DAB

DAB+ digital radio is noise-free radio with extremely robust reception. DAB+ contrasts the regionally limited FM programme offering with many radio programmes broadcast nationwide in the best digital quality. In addition, there are numerous regionally broadcast stations.

FM/ RDS

Receive classic FM radio stations in your reception area. Via RDS (Radio Data System) you also receive extended programme information and alternative additional frequencies to the FM radio station you are listening to.

Watch

In addition to channel and other programme information, you can also display the time on the integrated display. The clock information is transmitted electronically with the programmes received, so the correct time is set automatically.

CD player with MP3 function

You can listen to your entire CD collection on the integrated CD player. The CD player supports classic audio CDs as well as CD-R and CD-RW formats. In addition, you can also play MP3 CDs.

USB Playback

Do you have countless MP3 songs stored on USB data carriers (hard disks or sticks)? Then connect the data carrier via the USB interface to play the music directly on the unit.

Bluetooth streaming

Bluetooth audio streaming lets you transfer music from your smartphone, tablet or PC to the unit without a wired connection and in the best quality.

What's in the box

- DIGITRADIO 750
- DAB/UKW throw antenna
- Remote control
- Operating instructions

Specs

Product Attributes

EAN:	4019588039193
Manufacturer number:	0000/3919
Product weight:	6.98 kilograms

Dimensions and Weight

Product height:	26.2
