That's what your teeth have been waiting for: clear your bathroom cabinet for your new exciting electric toothbrush! Comes with effective rotations, a flexible head, an intelligent charging station, triple-twisted bristles and featured travel-lock. Oh happy day!

Colour

PRODUCT DETAILS

This rotating toothbrush with a special flexible brush head and triple-twisted bristles ensures sensitive and effective cleaning. The smart charging station shows a 2-minute-countdown or the current time. Its high-performing power battery allows you to go on adventures for about three weeks and make use of the convenient travel-lock-function.

Special Flex Head

A flexible brush head adjusts to the brushing pressure and prevents excessive pressure.

Premium Triple-Bristles

Triple-twisted, soft bristles pamper your teeth with their large surface and 8.800 rotations per minute.

Smart Charging Station

Shows you either a 2-minute countdown or the current time.

Power Battery

A single charge of the integrated power battery will suffice for adventures of up to 3 weeks.

Custom-Cleaning-Modes

Bye-bye, brushing by hand! It was nice, but there are three new options: Normal, Sensitive and Polishing.

Safety class: IPX7

Capacity: 700 mAh

Box Content
