PRODUCT DETAILS

JBL Pure Bass

JBL TUNE 220TWS earbuds don't go for average but play standout audio. With a 12mm driver featuring JBL Pure Bass Sound, they do not skimp on sound.

20 hours of combined playback: the sound never quits

Find your groove and stay in it. These earbuds give you 3 hours of nonstop sound plus another 17 hours from the pocket-sized charging case.

Stay connected, not wired

No annoying wires, no tangles — just your music when and where you want it, compatible with both iPhone and Android devices. From wire-free music, seamlessly connected thanks to Bluetooth 5.0, to hands-free calls, they keep up while you keep moving.

Easy, on-the-go controls

Go from playlist to call to Voice Assistant without missing a beat. Convenient buttons on the right and left earbuds for switching tracks, playing, pausing, voice command, and taking calls put you in control every step of the way.

Hands-free, fuss-free stereo calls

Grabbing a call mid-song doesn't have to interrupt your flow. Switch back and forth with on-ear controls and go hands-free for stereo-mode calls that are completely distortion-free.

Turn your style up a notch

They may be small in size but they have a big wow factor, with a sleek metallic finish and soft-touch paint. Go classic white or choose from an array of both trendy and classic colors to match your style.

Designed for all-day wear

You'll want to keep them in your ears non-stop — and thanks to the comfortable ergonomic design, you'll be able to. The JBL TUNE 220TWS earbuds were designed with all-day wear in mind.

Sleek, convenient charging case

No detail left to chance. The charging case for the JBL TUNE 220TWS is as thoughtfully designed as the earbuds it holds, with a shape inspired by a river stone, a soft body, and a curved lid that pops up to give you fast access to your buds.

What's in the box:

- JBL TUNE 220TWS earpieces
