Hi-Res Over-Ear Headphones from the "Style Series" with Bluetooth and In-Line Microphone for hands-free operation

Colour

PRODUCT DETAILS

The SE-MS7BT supports Qualcomm® aptX™ audio and AAC for high-quality audio playback via Bluetooth. Equipped with NFC, it is possible to pair with other devices simply by holding them together.

It is equipped with hi-res-capable, large 40 mm drivers and has wide cushioned earpads which surround the whole ear for extremely comfortable listening.

The controls for smartphone operation are integrated into the headphone. A 3.5mm jack connector is included in the scope of delivery for Hi-Res audio operation. Available in three colors: black, silver and brown

Bluetooth

Wireless headphones with long battery life, playback control and hands-free function for smartphones.

NFC

This headset supports NFC and can be wirelessly connected with other NFC devices for audio transmission.

Hi-Res Audio

Designed for playback of hi-res audio files such as DSD, MQA or FLAC. The extremely wide range of frequencies reproduces even the finest sound details.

Multifunction Headset

With the integrated Inline Microphone, Phone calls can be accepted or cleared.
