PRODUCT DETAILS

Auto-resetting Fuse

Zendure Passport is the World's First Global Travel Adapter with Auto-resetting Fuse. Utilizing aerospace technology, the Auto-resetting fuse (patent pending) allows Passport to recover from overloads without service or replacement up to 10,000 times!

Easy “Press and Slide” Buttons

Zendure Passport requires only one hand to push, extend, and lock in place each of the country selection buttons. As simple push of the button, unlocks the prong so it can easily retracted.

Four powerful USB Ports

Zendure Passport is the smallest international travel adapter with four powerful USB ports (5A/25W max), the highest in the industry. All four USB ports feature stabilized voltage output to ensure completely safe charging of all portable devices.

Worldwide Universal

Passport travel adapter covers more than 150 countries with USA/UK/EUROPE/AUS/CA/JP plugs, which and be worked in USA, UK, Europe, Canada, Japan, Mexico, Brazil, Central America, South America, Asia, the Middle East etc...
