ECOVACS

Ecovacs DEEBOT OZMO T8 Robot Vacuum & Mopping Cleaner, white ²⁴⁹¹³² SRP 699,00 €

Powerful in-depth cleaning & advanced obstacle detection. New TrueDetect 3D technology avoids collisions, getting stuck or tangled.

PRODUCT DETAILS

Powerful in-depth cleaning & advanced obstacle detection

DEEBOT OZMO T8 is the first vacuum and mopping robot with state-of-the-art TrueDetect 3D technology. With structured light technology and a 3D scanning algorithm, the robot scans surroundings extremely precisely and detects even the smallest obstacles in the room to avoid collisions, getting stuck or tangled. Equipped with brandnew TrueMapping technology, it maps your home with 4X the accuracy or standard laser navigation. A deep clean with superior cleaning efficiency is ensured with ECOVAC's powerful pressure-retention suction system as well as the new and unique OZMO[™] Pro mopping technology that consists of a water tank with a high-frequency vibrating mopping plate, ideal for dealing with stubborn stains. Features like virtual boundary setting, carpet detection, individual scheduled room cleaning and multi-floor mapping make cleaning more convenient.

What's in the box:

- 1 Robotic vacuum cleaner DEEBOT OZMO T8
- 1 Charging dock
- 4 Side brushes
- 1 OZMO Pro module
- 1 OZMO module
- 20 Disposable cleaning cloths
- 2 High efficiency filters
- 1 User manual
- 1 Cleaning tool
