Effective particle filter for rooms with up to 16 m<sup>2</sup>.

Colour

### PRODUCT DETAILS

#### HEPASilent™ technology

JOY S delivers solid performance with its fan design, large filter surface, and HEPASilent™ technology, which combines electrostatic and mechanical filtration technologies. This combination delivers high Clean Air Delivery Rate (CADR) with whisper-silent operation and high energy efficiency. In fact, all our JOY S air purifiers work so quietly that you might have to check to make sure it's switched on.

#### Air purification for compact living

Say hello to JOY S! Our smallest and slimmest air purifier for your favorite cozy spaces. Designed for rooms up to 16 m<sup>2</sup>, just place it wherever you want, plug it in, and breathe perfectly clean air 24/7.

#### Easy to control and maintain

JOY S is not only whisper silent and energy efficient, the one-button speed control makes it super easy to use. And when you finally have to replace the filter, you don't have to be an engineer – all you need is one simple twist.

#### Huge filter area

JOY S consists of an advanced filter. With unique HEPASilent Technology using both mechanical and electrostatic filtration, it catches virtually every airborne contaminant down to 0.1 micron in size: pollen, dust, pet dander, mold spores, smoke, allergens and bacteria. Empowered with active carbon filter it even removes odors, gases and VOCs. And thanks to the unique 360° air intake, JOY S is fully efficient wherever you place it.

#### Breathe freshly cleaned air every 12 minutes

With 5 air changes per hour, JOY S cleans your indoor air completely five times per hour. On lowest speed setting, JOY S consumes only 1.5 watts of electricity, being environment and pocket friendly. The whisper silent air purifier ensures you are able to concentrate on your work while it does its job silently.

**Product Attributes**

EAN:	0689122012018
Manufacturer number:	103757
Product weight:	2.4 kilograms

**Search Boosters**

**Technical specifications**

Air quality monitoring:	false
Clean air delivery rate (m³/h) - pollen:	222
Clean air delivery rate (m³/h) - dust:	205
App-controlled:	No
Clean air delivery rate (m³/h) - smoke:	202
Fan speed settings:	3
Recommended filter change:	6-12
Recommended room size (2 ACH)	41
Recommended room size (5 ACH)	17
Sound level:	17-46
Timer:	false

**Energy Management**

Power consumption:	1.5-10
