PRODUCT DETAILS

With this dual turntable, you can enjoy your old and new records in the usual quality and digitise them via the integrated USB connection. This allows you to transfer your favourite music from the record directly to your PC. The unit has an integrated equaliser preamplifier and can thus be connected to any phono and audio input (AUX-In).

Highlights:

- Aluminium turntable with belt drive and 2 speeds: 33 & 45 rpm.
- DC direct current motor • Synchronisation fluctuations: < 0.25 % WRMS (JIS WTD at 3 kHz)
- Pitch control: +/- 10%
- Adjustable tracking force
- Adjustable anti-skating
- Balanced S tone arm
- Detachable magnetic pick-up system (AT 3600L)
- USB connection for easy digitisation of records
