PRODUCT DETAILS

A Sleek, Minimalist Design You'll Love

Elfin provides all the amazing features of any XGIMI projector but in a much more compact design. And with solid lens protection! No more lugging around a bulky projector. Jazz up that next game night or crush any important presentation with Elfin by your side.

Remarkably Bright & Clear Display

Simply put, Elfin packs some seriously powerful brightness and FHD resolution. Regardless of the content, Elfin provides the brightest visual experience for its size.

Size Really Does Matter

Hollywood is coming to your living room, and it's bringing a 200" screen with it. Experience all the theater-like thrills and joys of 3D movies in the comfort of your home. With such a large, crystal-clear view, Elfin will easily supersize any moment.

Use Elfin Anywhere

Elfin's throw ratio makes it suitable for projecting in most rooms, gyms, or offices, regardless of how small.

Cinematic Surround Sound

What pairs great with Elfin's incredible image quality? Two 3W built-in Harman Kardon speakers. These beauties will instantly enhance your favorite YouTube videos or music, via Bluetooth, with the high-quality sound they deserve.

Entertainment That Never Stops

Both the integrated Android TV™ and Google Play Store open up a world of endless entertainment. With 5000+ apps available, including Prime Video, Hulu, and Disney+, there's always something for

everyone.

Watch How You Want

Your next party will be a huge hit, thanks to Chromecast built-in. Cast your content, apps, and games directly to Elfin from any Apple or Android device, and spice up the night effortlessly.

Effortless Voice Control

Manage your entertainment and Google Home devices with Google Assistant. By using simple voice commands, you can open apps, search for your favorite content, or play music easily.

A New Way to Game

Are you an avid or casual gamer? We haven't forgotten about you. Elfin's Game Mode Boost enhances your gaming worlds with low latency and incredible refresh rates. Stay connected easily via Elfin's USB, HDMI, and 3.5mm audio ports.

Spend More Time Using not Adjusting

With Elfin, you'll never feel frustrated by a slow or complex setup. Simply plug it in, power it on rapidly with our fast boot function, and let the Intelligent Screen Adaptation (ISA) technology perfectly adjust your display in seconds.

- **Auto Keystone Correction:** Automatically aligns the image based on +/-45 degree vertical/horizontal angles.
- **Autofocus:** Ensures your content is crisp and clear.
- **Intelligent Screen Alignment:** Matches the projected image with your screen automatically.
- **Obstacle Avoidance:** Detects objects in the projection area and scales the image to avoid it.

Never Miss a Moment of the Action

Elfin combines 60Hz motion compensation and super-low latency to deliver images with incredibly low image blur any time of day. This means you won't miss a single detail of any action movie or sports game.

Brilliant Lifelike Imagery

HDR10+ helps Elfin provide the ultimate contrast ratio, making the brightest image colors brighter and the dark areas more pronounced. Enjoy true-to-life visuals with incredible color depth and detail for all you project.

You Deserve a Sharp Display

Our X-VUE 2.0 image engine significantly boosts the color and clarity for any dynamic content. And there's absolutely nothing better than a clear viewing experience to fully immerse you into whatever you love to watch.

Committed to You and the Environment

Rest easy knowing your Elfin projector provides you and your family a safer viewing experience by limiting blue light exposure and reducing waste. Low power consumption + an ultra-efficient LED light source equals a durable, eco-friendly device fully usable for over 10 years.
