PRODUCT DETAILS

The DIGITRADIO 370 CD IR has room for everything that provides the best entertainment. The compact and elegant device delights with a huge variety of stations when it receives radio via DAB+, FM and the Internet. Added to this is the integrated CD player, which positions the DIGITRADIO 370 CD IR as an alternative to the classic compact system. The CD player plays both audio CDs and MP3 files and supports CD-Rs and CD-RWs. In addition, MP3 files can be played from an external USB data carrier. Connected mobile devices, such as a smartphone, can even be charged via the USB port. The DIGITRADIO 370 CD IR also receives music wirelessly from mobile devices via Bluetooth. The DIGITRADIO 370 CD IR not only impresses with the variety of music sources, but also with excellent sound. Two powerful speakers provide a fantastic stereo sound. Alternatively, you can control the music system either with the remote control included in the scope of delivery or via the TechniSat CONNECT app on your smartphone/tablet.

DAB

DAB+ digital radio is noise-free radio with extremely robust reception. DAB+ contrasts the regionally limited FM programme offering with many radio programmes broadcast nationwide in the best digital quality. In addition, there are numerous regionally broadcast stations.

FM/ RDS

Receive classic FM radio stations in your reception area. Via RDS (Radio Data System) you also receive extended programme information and alternative additional frequencies to the FM radio station you are listening to.

Internet radio

With the integrated Internet radio function, you can access thousands of Internet radio stations. Just connect the unit to your home network. The range is continuously expanded and automatically updated, so you can continue to discover many exciting programmes from all over the world (requires broadband Internet connection).

Watch

In addition to channel and other programme information, you can also display the time on the integrated display. The clock information is transmitted electronically with the programmes received, so the correct time is set automatically.

Alarm clock / sleep timer

This unit has practical sleep timers with numerous adjustable switching times. This allows you to wind down comfortably in the evening without having to worry about switching it off. Via the integrated radio alarm function, you can be woken up by your favourite programme if you wish.

CD player with MP3 function

You can listen to your entire CD collection on the integrated CD player. The CD player supports classic audio CDs as well as CD-R and CD-RW formats. In addition, you can also play MP3 CDs.

USB charging

You can charge devices such as smartphones or music players that are charged via USB to the USB port of this unit.

TechniSat CONNECT

TechniSat CONNECT is the App which, for the first time, enables the uniform control of a large number of smart functions from a central App. The App can be individually adapted to your requirements with various application modules. CONNECT is available for iOS and Android mobile devices.

Bluetooth streaming

Bluetooth audio streaming lets you transfer music from your smartphone, tablet or PC to the unit without a wired connection and in the best quality.
