Mobile DAB+/ FM radio for bicycles, with battery and  
music streaming

Colour

### PRODUCT DETAILS

Combine the passion for cycling with the joy of music. You'll experience a whole new level of riding pleasure - on your daily ride to work or on the fast-paced trails. Thanks to the powerful battery, the DIGITRADIO Bike 1 is always with you and delights with a wide variety of stations via DAB+ and FM or with your favourite music from your smartphone via Bluetooth. Thanks to the water-repellent housing and the special coating against UV rays, no weather is an obstacle. The crystal-clear OLED display always remains perfectly legible even in blinding sunlight. With the included universal mount, the DIGITRADIO Bike 1 can be attached to the handlebar, frame or cup holder. So you can master any terrain with twice the fun.

#### DAB

DAB+ digital radio is noise-free radio with extremely robust reception. DAB+ contrasts the regionally limited FM programme offering with many radio programmes broadcast nationwide in the best digital quality. In addition, there are numerous regionally broadcast stations.

#### FM/ RDS

Receive classic FM radio stations in your reception area. Via RDS (Radio Data System) you also receive extended programme information and alternative additional frequencies to the FM radio station you are listening to.

#### Watch

In addition to channel and other programme information, you can also display the time on the integrated display. The clock information is transmitted electronically with the programmes received, so the correct time is set automatically.

#### Equalizer

Manually control and adjust treble and bass to achieve an individual and optimal sound mix.

#### Bluetooth streaming

Bluetooth audio streaming lets you transfer music from your smartphone, tablet or PC to the unit without a wired connection and in the best quality.
