Portable CD player with DAB+ radio

Colour

PRODUCT DETAILS

The DIGITRADIO CD 2GO is a portable MP3 player that also has the best DAB+ and FM radio reception on board. So if you have a large CD collection at home and don't want to do without modern radio reception, this device is the perfect choice. The DIGITRADIO CD 2GO plays all standard audio CDs.

Ten memory locations for favourites are available for DAB+ and FM. Thanks to its minimalist design, this portable MP3 player is very compact and easy to use. In addition, you can use the equaliser to manually adjust sound settings to your taste.

The DIGITRADIO CD 2GO works with batteries as well as with a cable. The MP3 player is not affected by shocks when walking or travelling. This is ensured by the so-called anti-shock function, which prevents playback from interrupting during transport. Thanks to the resume function, the audio book or music album can be restarted at exactly the right point.

DAB

DAB+ digital radio is noise-free radio with extremely robust reception. DAB+ contrasts the regionally limited FM programme offering with many radio programmes broadcast nationwide in the best digital quality. In addition, there are numerous regionally broadcast stations.

FM/ RDS

Receive classic FM radio stations in your reception area. Via RDS (Radio Data System) you also receive extended programme information and alternative additional frequencies to the FM radio station you are listening to.

CD player with MP3 function

You can listen to your entire CD collection on the integrated CD player. The CD player supports classic audio CDs as well as CD-R and CD-RW formats. In addition, you can also play MP3 CDs.

Equalizer

Manually control and adjust treble and bass to achieve an individual and optimal sound mix.

What's in the box

- DIGITRADIO CD 2GO
- earphones
- external power cable
- Operating instructions
