PRODUCT DETAILS

Digital and analog radio reception

Who doesn't know the eternal search for the perfect FM frequency? With digital radio, this search is now over: DAB + offers 1A sound quality without any noise. A large number of regional and nation-wide digital channels can be received at the push of a button. Is your favorite local channel not digital yet? Thanks to FM mode, you don't have to do without it.

CD drive - anything but old school

Do you still have the good old CD? With the DR1550CBT you don't have to do without your beloved CD collection. Thanks to the integrated CD drawer drive, the radio also plays CDs and plays the music in the best stereo sound.

Stream wirelessly via Bluetooth

The selection of radio stations is huge, but nothing beats the specially created playlist. Thanks to Bluetooth, you can stream these quickly and easily from your smartphone, tablet, notebook or PC to the radio. Simply pair the radio and device and enjoy your favorite music.

Connect external music sources via USB

Have you saved your music collections externally on USB sticks? These can also be connected directly to the radio. You don't have to pair the Bluetooth streaming audio source and radio every time you want to listen to your own playlists.

Sleep timer and alarm function

With the sleep function you can let music accompany you to sleep. The radio switches itself off after the

preset time. Even in the morning when you get up, the radio accompanies you throughout the day and you can let radio music or the buzzer wake you up. You can save 2 wake-up times: eg one for the working days and one for the weekend.

What's in the Box

- 1 "DR1550CBT" digital radio
- 1 power supply unit (12V, 1A)
- 1 quick-start guide (multilingual)
