### PRODUCT DETAILS

#### Listen, Your Way

M&D has a deep passion for designing technically sophisticated headphones that look as beautiful as the sound. The MW50+ features Best-in-class-signal-range using Bluetooth 4.1 with aptX. Each pair comes with two sets of interchangeable ear pads, one over-ear pair and one on-ear pair.

#### Designed for decades of use

We engineer our products to last, utilising heavy-duty materials such as premium leathers and stainless steel. We design our parts to be easily replaceable, ensuring that our headphones continue to perform with precision for decades to come. On-Ear and Over-Ear consisting of memory foam and lambskin.

#### Tuned for a rich, warm sound

We sought a natural, detailed, live sound signature for our headphones. Our expansive soundscape captures the detail that well recorded music has to offer. Our tuning was designed to complement a diversity of tastes and musical genres. Exclusive drivers use beryllium for superior acoustics.

#### Complemented by functional details

We carefully crafted all the essential functions and practical details into our designs, from the easily replaceable parts to separating the microphone from the remote for increased vocal clarity. Ear cups fold flat for portability and comfort.

#### Wireless Music Enjoyment

The MW50+ combines durable stainless steel components with an all aluminum antenna to create uncompromising durability, style and a premium signal range. Data is transferred via Bluetooth 4.1 aptX. With 16 hours of battery life, you're ready for longer sessions.
