PRODUCT DETAILS

One App, Full Control

With the Hombli app you easily create the perfect ambiance in any room for when watching movies, parties and events like Christmas. Turn the LED strip on/off, adjust brightness and choose colors with a single tap in the app. Make also use of a timer and scheduling features or enjoy pre-programmed light scenes.

Control Without Your Phone

With the controller that is connected to the strip, you can also turn the device on/off without needing your phone.

Flexible & Cuttable

The Hombli Smart LED Strip gives you the flexibility to shape, bend and trim it to the perfect size. Easily Install the strip to walls, cabinets, or bed frames with the included 3M adhesive tape.

Control the LED Strip With Voice Commands

Control the LED strip with voice control through the Google Assistant, Amazon Alexa, or Siri. Use hands-free voice commands such as: "Hey Google, dim the led strip in the living room" "Hey Alexa, make the led purple" "Hey Siri, turn on the led strip"

Control From Anywhere...

Whether you're at home or away, you can control the Hombli Smart LED Strip from anywhere in the world with your phone.

Easy Home Automation

Create personalized smart scenarios and control them manually or automatically. The user-friendly app interface makes home automation a piece of cake. Execute scenarios automatically when pre-set conditions are met. Choose triggers like time schedules, sunset/sunrise, weather, temperature, humidity

or other devices.
