SRP 39,95 €

39,95 €

No matter where you are, control home electronics using your tablet or smartphone with the Hombli Smart WiFi Plug. You can turn devices on/off, check status, create schedules and set timers using the Hombli app.

PRODUCT DETAILS

With the remote access, you are able to check the real-time status of your home appliance anytime and anywhere. Wherever you are, control your devices before arriving home or after leaving. Use the away-mode to make it look like you are at home, even when you are halfway around the world, you can take control and switch off/on or schedule in regular times to conserve energy and reduce your energy bill.

The smart wall socket monitors the energy usage of each connected device and shows you how much electricity an electronic device used.

Use Amazon Alexa or Google Assistant to voice control to an electronic device that is connected to your smart socket

At Hombli we protect your privacy. All GDPR principles are met, user data is only accessible for the user itself and is never shared with third parties.

Features:

- REMOTE CONTROL – Connect any home appliance to the smart plug and control it from anywhere via the free Hombli app (Android and iOS). Connect your smart socket directly with your WiFi network
- TIME AND SCHEDULE – Easily set your home appliances to automatically turn on/off at a specific time or day of the week. For instance, automatically turn on the lights at night when you’re not at home
- VOICE CONTROL – Connect to Amazon Alexa and Google Assistant for voice control. Use your voice to turn on the coffee maker when you wake up in the morning or create a group with multiple home
