PRODUCT DETAILS

Your personal window cleaner

WINBOT 880 cleans your windows whenever you want and is especially convenient for hard-to-reach places. WINBOT 880 is operated and controlled with a handy remote control and works efficient and safe thanks to upgraded WIN-SLAM 2.0 technology, edge detection for frameless windows and an intelligent security design. The 4-stage cleaning system with different optional cleaning modes ensure a thorough clean. With new voice assistant WINBOT 880 is now even more user friendly. As window cleaning robot inventor, ECOVACS Robotics has been devoted to WINBOT product research and development since 2011.
