SRP 79,95 €

79,95 €

Add a warm light and cozy atmosphere to your garden, balcony, patio or outdoor area of your choice. This smart outdoor light is 5 meters long and has 10 bulbs (DC12V) with warm white light, all weatherproof (IP65). The Hombli app lets you control the light and adjust brightness from wherever you are.

### PRODUCT DETAILS

With the Hombli Smart Outdoor String Light you can add a warm and cozy atmosphere to your garden, balcony, patio or any other outdoor area. This smart outdoor light is 5 meters long and has 10 bulbs (DC12V) with warm white light. The string light is specially designed for outdoors and is weatherproof (IP65). With the Hombli app you can control the string light from any location and adjust the brightness to your preference.

#### Control with your phone

With the app you can control the string lights with your smartphone at any time at home, on the go and even abroad. Thanks to the user-friendly interface, you can easily use smart features: switch the lights on/off, dim the brightness and create scenarios.

#### Automate your lighting

With the scenario feature you can easily automate your light string with triggers such as: the weather, sunrise/sunset and more. In the app it is also possible to set schedules and timers.

#### Voice control with voice assistants

Got your hands full? Then ask the Google Assistant, Alexa or Siri to take control! The string light is also easy to connect to smart speakers such as Google Home Mini, Google Nest Hub or Amazon Echo Dot.

#### Designed for outdoor use

The Hombli Smart String Light is specially designed for use in outdoor environments such as the garden, balcony or terrace. This string light is IP65 weatherproof and is protected against rain and dust. The String Light is also easy to extend with the extension kit for a maximum length of 15 meters (sold separately).

### Easy installation

Via the Hombli app you pair the string light directly to your Wi-Fi network (2.4GHz). You don't need an extra accessory like a bridge or hub. The lightbulb sockets have mounting holes that allows you to hang them in different ways. Hanging methods differs per situation, please ask for professional advice at your local DIY store.
