SRP 199,00 €

199,00 €

The over-ear wireless headphones A9/600 from Kygo offers a comfortable fit with an immersive sound. Used by Kygo in all his DJ performances, the A9/600 comes with touch panel, high quality memory foam cushions and up to 23h playing time.

Colour

## PRODUCT DETAILS

**High quality memory foam cushion**

Forms great around the ear, isolating environmental noise and increasing comfort during longer periods.

**Touch panel**

Responsive to push or swipe gestures and stable in low temperatures.

**Advanced Bluetooth chip: CSR8670**

Usually found in more expensive headphones from competing brands, this high quality chip improves lip-sync issues with the AAC protocol, enhances the equalisation of drivers and enables software update via the Kygo sound app.

**High quality Matt UV coating**

Resistant to damage, durable and easy to clean.

**New line-in cable**

Durable round textile cable with 45 degrees connector, designed to decrease friction with textiles.

**Sound Image**

- Wide frequency range (15Hz - 22kHz) which can reproduce both low frequencies and clear and extended high frequencies
- Extremely good bass control
- Detailed and life-like reproduction of vocals and instruments
- Good passive noise isolation

**Kygo Sound App**

Experience a new way of customizing your sound. Move the dot through four unique cities, with four unique sound experiences – each with a special meaning to Kygos journey, so far. It also allows software updates, see product information and get in touch with Kygo Life customer service.
