### PRODUCT DETAILS

#### Modern design meets high-end sound quality

The Master & Dynamic MW60 headphones are designed as ultra-modern, mobile headphones. The wireless over-ear design will help you organize your thoughts and get inspired.

#### Selected materials

Designed for decades of use, our Bluetooth headphones are made from only the finest materials for a rich, warm sound. Premium cowhide on the headband as well as on the earcuffs gives the MW60 its exceptional look, while the ultra-comfortable, interchangeable earcups and the headband inside are made of soft lambskin leather. This ensures a comfortable fit even for extended periods of listening.

#### Incomparable sound

We did not settle with the sound and spent a long time looking for a natural, detailed live sound signature for our headphones. Our expansive soundscape captures the details that well-recorded music has to offer. Our tuning is designed to complement a variety of tastes and musical genres.

#### Wireless music enjoyment

Our MW60s combine durable stainless steel components with a full aluminum antenna to create uncompromising durability, style and premium signal range. Data is transmitted wirelessly via Bluetooth 4.1 aptX, which allows you to listen to music in the best CD quality. Due to 16 hours of battery life, you are well equipped for longer sessions.

#### Decades of use

Our headphones use only high-quality materials to ensure decades of use. We design our products so that many parts are easily replaceable when worn and ensure that our headphones will perform well for decades to come.
