PRODUCT DETAILS

The intelligent air purifier for your unique style

The next generation of the Sense, the Blueair Sense+, combines cutting-edge technology with sleek design and environmentally friendly credentials. Wi-Fi enabled for remote control and interactivity with the Blueair app, the Sense+ is the heart of a Blueair clean air intelligence system that puts you in total control of your indoor air.

The smart air purifier with Wi-Fi

The Blueair Sense+ is a smart air purifier that swiftly removes all impurities from the air inside your home, and does so with an award-winning design. Thanks to Wi-Fi connectivity, you can control it from anywhere. For instance, turn it on or off, increase the fan speed or activate the child lock wherever you have Wi-Fi.

Whisper-silent clean air delivery

Using a unique combination of electrostatic and mechanical filtration, Blueair filters are able to use less dense filter media. This means less effort is required to push the air through the filter, resulting in peak performance levels with whisper-silent delivery of clean air.

HEPASilent™ technology

Sense+ delivers high performance thanks to HEPASilent™ technology, which combines electrostatic and mechanical filtration technologies. This combination, pioneered by Blueair, delivers high clean-air delivery rate (CADR) with whisper-silent operation and high energy efficiency. In fact, Sense+ works so quietly that you might have to check to make sure your air purifier is switched on. And on its lowest setting, Sense+ uses less electricity than a light bulb.

Sophisticated interaction
Futuristic, motion-sensing controls operate without a touch, just a wave of the hand. Sense+ is Wifi-enabled so you can connect it to the Blueair app for remote control from any smart device, whether at home, at work or at play. Connect to the Blueair app to check room air quality and confirm that the air is impressively fresh, clean and energizing for everyone.

Built to last
Housing made from durable, galvanized steel stands the test of time. Backed by our extended warranty when you register your unit.

Sleep without disruption
Whisper quiet on the lowest speed (29 dB) so you can rest easy.

Limit energy costs
Energy efficiency (7 - 45 W) - less energy than a traditional lightbulb. So, you can run your air purifier 24 hours a day without concern.

Specs

Product Attributes

EAN:	0689122003214
Manufacturer number:	SENSEPK230PACGB
Product weight:	11.5 kilograms

Technical specifications

Air quality monitoring:	true
Clean air delivery rate (m³/h) - pollen:	255
Clean air delivery rate (m³/h) - dust:	238
App-controlled:	Yes
Clean air delivery rate (m³/h) - smoke:	204
Fan speed settings:	3
Filter technology:	HEPAsilent
Recommended room size (2 ACH)	43
Recommended room size (5 ACH)	18
Sound level:	29

Energy Management

Power consumption:	7-45
