PRODUCT DETAILS

AQVIA captures Scandinavian design standards, honouring long-lasting quality and honest functionality. Driven by the devotion to the sustainable home carbonation tradition, AQVIA elevates the sparkling water experience in everyday life.

Black or white. A lightweight model in a matte finish that blends in or stands out. You decide.

The AQVIA Balance is a stylish sparkling water maker manufactured with design, functionality and quality in mind. It was launched in 2011 and has been a success ever since. It's considered the 'best value for money' sparkling water maker on the market. Currently available in its 4th generation model.

The design of the Balance is similar to the Exclusive model, and both models use the same technology. The Balance is lighter and made of matte-finished plastic with stylish but practical softell details. AQVIA Balance has two color options: black and white.

Key features

- Carbonating button on the front
- CO2 cylinder replacement from the back
- Matte plastic shell with soft-touch details
