SRP 499,00 €

499,00 €

The Pro-Ject Debut OM10 is a manual turntable with Bluetooth function and built-in preamp. The turntable impresses with its high-quality Ortofon cartridge, belt drive and two speed settings: 33 & 45 rpm.

Colour

PRODUCT DETAILS

Wireless, audiophile “Plug & Play” turntable with vertical set-up including wall-mount option!

A turntable set-up does not need to be complicated like rocket-science, our VT-E turntable proves that. This good sounding belt-driven deck offers two versions for left- and right-handed users. The fastest possible installation process is made possible, because it comes pre-adjusted out of the box. No further set-up is needed.

Tracking force and anti-skating are carefully set. The VT-E turntable can be positioned on a table or mounted on a wall. For further ease of use, it comes with a phono pre- amplifier and BT transmitter. So even a wireless solution is possible! You can use both BT and RCA output at the same time. VT-E BT, the world's first wireless turntable, is available in black, red or white high gloss colour.

In the box:

- VT-E with Ortofon OM 5E
- Power adapter
- Directly soldered gold-plated RCA Phono Cable
- Felt mat
- Adapter for 7" singles
- Wall-mounting kit
- Allen key
