Colours: Dark Grey, Light Grey

Softly shaped multiroom.

[FULL DESCRIPTION]

A10 MkII

A multiroom speaker with a modest footprint and rounded design, that makes a space savvy addition to the smaller room. The fabric front perfectly complements modern interior design trends with the choice of two shades of grey, allowing a complete colour match for your home.

The speaker has an astonishing sound, despite its compact size. The unconventional use of a dedicated woofer, and the BMR technique makes it possible to get both deep bass as well as clear details in your highs and midrange. The A10 MkII is the new, improved version of A10. A multiroom speaker that offers not only Audio Pro multiroom system but also AirPlay 2, Google Cast and Spotify Connect, and an even greater sound than its predecessor.

4 preset buttons give you easy access to your favourite playlists and radio channels. Simply press the button, no need to even opening the app. This speaker can be mounted on the wall, by special wall mounting brackets (sold separately) or in the ceiling by simply clicking the speaker into electrical lightning tracks using special track brackets (sold separately).

Streaming services available: Amazon Music, Deezer, iHeart Radio, Napster, Qobuz, QQ Music, Spotify, Tidal, Tuneln, VTuner and many more via Google Cast and AirPlay 2.

TOP 3 FEATURES:

Compatible with AirPlay 2, Google Cast, Spotify Connect and Audio Pro Multiroom system.

Wireless multiroom and bluetooth in compact size. Multiroom sound and multi person usage.

The A10 can be mounted on a wall or in the ceiling. Mounting brackets are sold separately.

[SHORT DESCRIPTION]

A10 MkII

A small and round speaker with fabric front that makes a space savvy addition to the smaller room. The speaker has an astonishing sound, despite its compact size, due to unconventional use of a dedicated woofer and its BMR technique.
