

DEEBOT  PRO

2-in-1 vacuum and mopping robot for pet owners

Key Technologies

- OZMO™ mopping technology
- Pet kit
- Smart Move navigation
- Enhanced suction power

Tackling everything from dirt, stains and pet hair

Live Smart. Enjoy Life.

DEEBOT U2 PRO

Own a pet? Fed up with ongoing cleaning? DEEBOT U2 PRO is here to make life easier. The robot comes with Max+ mode, ensuring additional suction power, as well as an innovative pet kit with a tangle-free brush and an extra-big dustbin. It's specifically designed to work on floors with plenty of pet hair. ECOVACS' unique OZMO™ mopping technology becomes a new standard feature and is now first time available in all ECOVACS' models - from entry to premium. Switch to vacuum and mop combo for an all-round wet-cleaning session of your home. The app control and smart-home compatibility guarantee effortless cleaning even when you are not at home.

KEY TECHNOLOGIES & PRODUCT BENEFITS

Vacuum and mop in one go

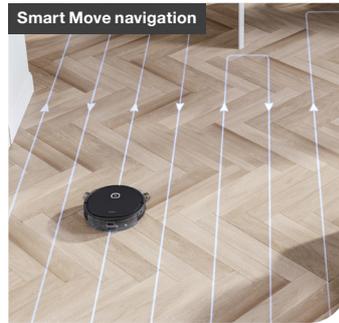

Featuring a vacuum and mop combo, DEEBOT U2 PRO can effectively deal with dirt and stains at the same time. Simply attach or detach the cleaning cloth plate to switch between vacuum and mopping functions. An electronically controlled water pump consistently draws water from the reservoir.

For the special needs of pet owners

DEEBOT U2 PRO comes with an innovative pet care kit that includes an interchangeable XL dustbin (800 ml) and a newly designed tangle-free brush**, specifically developed for pet owners to handle high volumes of pet hair.

**Tested by ECOVACS' lab in Shenzhen on a floor scattered with three grams of pet hair. The tangle-free brush doesn't get tangled with hair.

Systematic cleaning path for better efficiency

DEEBOT U2 PRO can follow an advanced, back-and-forth cleaning pattern for a more thorough, faster and systematic clean. Since the robot memorises cleaning paths, it can be paused in the middle of a task and will resume to follow the path when restarted.

Maximised cleaning performance

Max+ suction level increases the suction power by approximately 2.5 times compared to the standard mode for the most demanding tasks. Additionally, you can choose from different cleaning modes (auto, edge and spot) for a customised clean. DEEBOT U2 PRO can clean for 150 minutes on one full battery charge.*

*Compared to U2 model with 110 min

Specification

Name	DEEBOT U2 Pro
Noise Level	ca. 66 dB
Charging Time	ca. 4,5 hr.
Battery	Li-ion, 3200 mAh
Max Working Time	ca. 150 Min.
Dust Bin Size	400 ml
Watertank Size	300 ml
Doorsill Crossing	ca. 1.8 cm
Weight	2,75 kg
Dimension of the robot	337 x 339 x 79 mm
Product Packaging Weight	5,7 kg
Product Packaging Dimension	404 x 180 x 445 mm
Packing weight (1 in 1)	6,2 kg
Packing dimension (1 in 1)	419 x 192 x 462 mm
EAN EU	6943757600090

Add: Only works with 2.4 GHz Wi-Fi and does not support the 5 GHz-frequency band

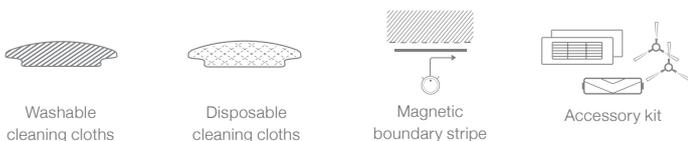

Standard Features

Smart home compatible	High efficiency filter	Obstacle detection	Stair safety technology
Automatic charging	Continuous cleaning	OTA technology	App control

What's in the box

- | | |
|--|-----------------------------|
| 1 Robotic vacuum cleaner
DEEBOT U2 PRO | 1 Washable cleaning cloth |
| 1 Charging dock | 1 Mopping plate |
| 4 Side brushes | 5 Disposable cleaning cloth |
| 1 Pet kit (800ml dust bin,
tangle-free brush, filter) | 2 High efficiency filter |
| | 1 User manual |
| | 1 Cleaning tool |
