

# a-JAYS Three

## Tangle-free cables

No more trying to undo messy cables thanks to Jays signature flat and tangle-free cables.

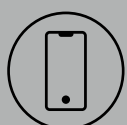

## L-shaped stereo plug

This allows a comfortable fit when the connected device is placed in a pocket or in a hand.

## Powerful sound

Equipped with a custom 8.6mm dynamic driver engineered for a throbbing bass and lively vocals.

## iOS, Android & Windows

The a-JAYS Three is compatible with all kinds of iOS, Android and Windows devices.

## Extra ear tips

Comes with 5 sizes of silicone ear tips, designed to block out ambient noise and isolate sound.

## Introduction

Upgrade your music experience with our popular, award-winning a-JAYS series earphones.

By designing our products in-house, we can deliver an award-winning music experience for you. Building on the success of their predecessors, the a-JAYS Three earphones emphasize the details, from the balanced sound to the sleek black rubber coating and finish.
